

ISO 27001

Lead Auditor

5 day Course

Introduction:

Our ISO 27001 Lead Auditor Training Course teaches delegates the principles and practices of undertaking Information Security Management System (ISMS) audits in line with the guidelines and requirements of ISO 27001 and ISO 19011 the international standard for management system auditing.

Course Structure:

Students will understand and practice the skills and techniques of planning, preparing, delivering and reporting an audit and to communicate the audit findings and conclusion effectively to the organisation's management.

By the end of the course successful students will understand and be able to explain and deliver:

- The purpose of an ISMS and the processes involved in establishing, implementing, operating, monitoring, reviewing and improving an ISMS as defined in ISO 27001
- The purpose, content and structure of ISO 27001:2005
- The purpose, content and structure of ISO 19011:2002
- Interpret the requirements of ISO 27001 and develop the audit requirement within a defined audit objective, scope and criteria
- Undertake the role of an auditor to plan, conduct, report and follow up an ISMS audit in accordance with ISO 19011:2002
- Report the audit findings and conclusion to add value to the organisation

The course uses accelerated learning techniques to ensure student 'learn by doing' in a fast moving and enjoyable environment. Role play and case studies simulate the real-world assessment and certification process.

The course runs for 5 days and is delivered through our trusted training partner TMS Insight. It is based on a mix of tutor inputs, practical exercises and role play situations. Students are required to take a two hour examination at the end of the course.

Who Should Attend:

This course is essential for those individuals who need to understand the practices of undertaking Information Security Management System (ISMS) audits in line with the guidelines and requirements of ISO 27001.

Trainer Biography

Geoff Dunn is one of the UK's leading ISO 27001 Information Security Management Systems practitioners. Geoff was involved in the development of the standard and has helped a wide range of organisations achieve certification. This experience gives him real insight into the practical application of the controls and control objectives and the management system elements of the standard. A gifted tutor, Geoff has trained hundreds of delegates on ISO 27001 courses. Geoff is Projects Director with the TMS Insight Group.

The Advent IM - TMS Insight Partnership

Advent IM is one of the UK's leading independent information and physical security consultancies and through our partnership with TMS Insight, we aim to bring professional, quality, information security training to our delegates to complement the best practice implementation advice and guidance we already provide. Our two companies have similar ethics in the way knowledge transfer should be delivered, that's why our courses are not just a break from the office, but are designed to be challenging, enjoyable and an excellent knowledge transfer experience.

TMS Insight is a leader in its market sector based on the skills, knowledge and versatility of its trainers and training materials. They provide an unrivalled range of training courses designed and developed by TMS Insight and externally licensed and regulated. With the unrivalled experience of both companies in understanding the requirements of developing and implementing an ISO 27001 compliant management system our courses suit all levels of learning whether you need a 1 day ISO 27001 Awareness Course, 2 day Internal Lead Auditor Course or 5 day Lead Auditor Course.
