**Advent IM will be offering testing and consultancy services at the Security
TWENTY 20 Birmingham
Conference and Exhibition**

Advent IM, the UK's leading independent, holistic security consultancy, will showcase their security specification, consultancy and red teaming and testing services at Security TWENTY 20 Birmingham.

Set in the convenient location of the Hilton Metropole Hotel at the NEC in Birmingham, this event will bring together top security industry speakers and is supported by a large exhibition of cutting-edge security products and services.

For more information click here:

<https://www.professionalsecurity.co.uk/security-events-and-conferences/security-twenty-home/birmingham/>

Confirmed speakers at the conference for this event are Richard Jenkins of the NSI talking about the ECHO Initiative, Arad Parsi of the Suzy Lamplugh Trust talking about lone worker protection and Julian Hurst of Secured by Design. There will be manufacturer updates from Hikvision, BT, HID Global, Seagate and 6S Global. The conference will be chaired by Security TWENTY regular Michael White.

Most importantly if you register in advance and are an installer, an end user, a consultant, or someone to do with private security, in the police or a buyer of security services you will be able to attend the Conference for **FREE**. And entitled to a free breakfast bap or lunch or both if you plan to spend the whole day there. We hope you will be able to join us! Register here:

NOTES TO EDITORS

About Advent IM

Advent IM is an independent specialist consultancy, focusing on holistic security management solutions for information, people and physical assets, across both the public and private sectors. Established in 2002, Advent IM is a centre of excellence for security services, promoting the benefits of best practice guidelines and standards and the need to address risk management to protect against potential threats. From its offices in the Midlands and London, its Consultants work nationwide and are members of the Institute of Information Security Professionals (IISP), The Security Institute (Syl) and British Computer Society.

Consultants are also Lead Auditors for the International standard for information security management (ISO 27001), CIESG Certified Professionals (CCP), Practitioners of PRINCE2, a recognised project management methodology widely used within the public sector, CISSP qualified and Home Office trained physical security assessors.
