

SURVEILLANCE CAMERA CONSULTING

Mike Gillespie - Managing Director & Co-founder of Advent IM

Mike is well versed in the threat to organisational assets. With many years' experience across both cyber and physical security worlds. An accomplished senior information security and data protection expert, Mike boasts extensive experience. A Chartered Institute of Information Security Fellow, he serves as CSCIS Senior Vice President Europe for cyber affairs. Notably, Mike has previously advised the UK Government Biometrics and Surveillance Camera Commissioner as Cyber Security Lead, was Director for Cyber Strategy & Research at the Security Institute, has been the cyber spokesperson for IIRSM and is a sought-after speaker and editorial contributor due to his subject matter expertise.

Ian Warren - Senior Security Consultant

A focused, resolute and pragmatic security consultant/practitioner with over 21 years of experience providing compliant government standard physical security advice and guidance, enabling businesses to deliver their essential output safely and securely in the UK and overseas environments.

As a Senior Consultant, in the majority of cases, Ian provides a Project Manager- type role that requires him to initiate a project, manage the various stages through to completion, engaging with key staff to understand requirements or to mentor progress. Invariably he will have responsibility for producing output for these projects. This may include but is not limited to

- Physical Security Reviews
- Surveillance Camera Reviews
- BSCC's Passport to Compliance
- Red Team Physical Pen Testing
- Business Case/Project Management Reports
- Workshops/Presentations
- Privacy Impact Assessments
- Policies & Procedures Reviews
- Compliance Audits
- ISO27001 implementation mentoring
- Training Gap Analysis
- Data protection/GDPR Reviews (including surveillance systems)

About Advent IM Ltd

Advent IM is the UK's leading independent holistic security consultancy. Our aim is deliver end to end solutions which ensure best practice compliance with industry standards and deliver effective security to minimise security breaches. We don't sell any products; we provide professional advice and guidance so that your information and physical assets are protected.
